

## Digital image processing software recommendations:

### CMoM presentation - 12 September 2008

#### 1. \*Use the software which comes with your digital camera! Add from below as desired

*(No guarantee of reliability of the following - Sorry! - Jerry G.)*

a. Online - PhotoShop Express - FREE (Get 2GB space to store your photos, editing options not available in iPhoto, will need high-speed Internet connection for uploading and downloading images to be edited.)

<https://www.photoshop.com/express/landing.html>

- Picasa - Mostly for PC users, but 2 small Mac apps to help organize, etc.

<http://picasa.google.com/support/bin/answer.py?hl=en&answer=12569>

b. iPhoto - \$79

c. Aperture v.2 - \$160 (Amazon 8/10/08)

d. Photoshop Elements v.6 - \$70 (Amazon 8/10/08)(Free shipping-MAYBE)

e. Photoshop CS3 - \$630 (Amazon 8/10/08) (student price - \$300)

f. Photoshop CS3 Upgrade - \$196 (Amazon 8/10/08)

g. Graphic Converter - \$35 (Lemke software 8/10/08)

h. ResizeMe - Dare to be Creative Ltd (\$19.95 / free 10 day demo)

<http://resize-me.com>

i. Portraits & Prints v2.2.1 - Econ Technologies (\$50 Pro, \$30 Standard)

[http://www.econtechnologies.com/site/Pages/Portraits\\_Prints/pnp\\_overview.html](http://www.econtechnologies.com/site/Pages/Portraits_Prints/pnp_overview.html)

*(N.B.- This package was offered with a FREE license a few months ago as a vendor offer Keep an eye on them in the future.)*

#### 2. Recovering images from memory cards

a. Rescue Pro - San Disk (Included with Extreme III memory cards)

b. MediaRECOVER™ 4.0 Digital Image Recovery & Data Recovery - Shareware  
(free demo)

[http://www.mediarecover.com/digital\\_image\\_recovery\\_apple\\_mac.html](http://www.mediarecover.com/digital_image_recovery_apple_mac.html)

c. CardRaider - \$20 (Ecamm makes reliable software and has good customer support - Jerry G.)

<http://www.ecamm.com/mac/cardraider/>

#### 3. Geo tagging photos - (adding GPS locations to photo metadata (and maps).)

a. Ovolab Geophoto - (\$25.00 9/1/08) Altitude data may not get added

<http://www.ovolab.com/geophoto/>

To find compatible GPS units and other info

<http://www.ovolab.com/geophoto/faq.php>

b. HoudahGeo (€25 or \$36.54 9/1/08)

<http://www.houdah.com/houdahGeo/>

To find more information

<http://www.houdah.com/houdahGeo/faq.html>

SIDEBAR: For Aperture users
